

ESHRE 2026 胚胎学重点报告

Key Embryology Reports

一、摘要

- ESHRE 胚胎学相关大会报告的核心趋势是：**AI/自动化、PGT-A 活检策略、非侵入式胚胎选择、多组学隐藏信号、培养微环境、冷冻复温流程和卵母细胞早期染色体错误机制正在快速融合。**
- 建议优先关注：**AI 胚胎/卵母细胞评分与实验室实时质控、PGT-A 嵌合体与 TE biopsy 时机、商业化培养基比较蛋白质组、透明质酸移植液 RCT、复温/玻璃化流程优化、卵母细胞红氧和线粒体限制。**
- 对公司研发和产品转化最相关的内容包括：**胚胎培养液与抗氧化体系、AI 辅助胚胎选择与实验室 KPI 预警、PGT-A 解释与活检流程、卵母细胞/胚胎冷冻平台、非侵入式 RNA/cfDNA/分泌组胚胎选择。**

二、建议关注优先级

Priority	Topic	Key reports	Why we should care
高	AI 胚胎/卵母细胞评估与实验室质量监控	L26-O-131, L26-O-132, L26-O-134-136, L26-O-262-264	已从单纯图像评分扩展到实时质控、供卵管理和机器人辅助操作，是最接近产品化/平台化的方向。
高	PGT-A 与 TE biopsy 策略	L26-O-159-164	与 PGT-A 适用人群、嵌合体解释、活检时机和整倍体胚胎移植策略直接相关。
高	培养基/培养微环境与抗氧化线索	L26-PCC-009, L26-PCC-010, L26-O-309, L26-O-310, L26-O-313	与培养液成分、氧张力、红氧/线粒体限制、透明质酸移植液和培养体系质控相关。
高	冷冻/复温流程和半自动化冷冻平台	L26-O-174, L26-O-175, L26-O-193, L26-O-223-226, L26-O-265	与卵母细胞/胚胎冷冻、供卵项目、生育力保存和实验室自动化改造相关。
中高	非侵入式胚胎选择隐藏信号	L26-O-073, L26-O-075-077, L26-O-288-291	RNA、cfDNA、分泌组、三维结构和动态参数可能成为未来胚胎选择组合指标。
中高	卵母细胞成熟与早期染色体错误机制	L26-O-004-009, L26-O-307, L26-O-308, L26-O-313	为卵母细胞质量评估、老龄相关非整倍性和潜在干预机制提供基础研究线索。
中	受精失败、异常受精与人工激活	L26-PCC-011-013, L26-O-195-197, L26-O-286-287, L26-O-311-312	更偏临床操作策略和患者咨询，但与男方因素周期和受精失败管理相关。

三、日程概览

Session	Chinese focus	Schedule / Room	Type	Chairs
Session 41: AI-Powered embryology	AI 驱动胚胎学	Tuesday, July 7, 2026 10:00-11:30 Auditorium	Selected oral communications	Dr Stefano Canosa (IVIRMA Global Research Alliance, LIVET; Italy); Mrs Hannah Newby (United Kingdom)
Session 45: The PGT-A story starts at the biopsy	PGT-A 与活检策略	Tuesday, July 7, 2026 10:00-11:30 George V 3+4	Selected oral communications	Dr Ioannis Sfontouris (Hygeia IVF - Embryogenesis; Greece); Dr Amy Barrie (United Kingdom)
Session 49: Navigating the cold zone: from microfluidics to faster protocols	冷冻流程、微流控与快速方案	Tuesday, July 7, 2026 11:45-12:45 George V 1+2	Invited session	Professor Dr Thomas Ebner (Kepler Universitätsklinikum; Austria); Professor Rod Mitchell (University of Edinburgh; United Kingdom)
Session 59: The clock is ticking in the embryology lab	胚胎实验室关键时间窗	Tuesday, July 7, 2026 15:15-16:30 Auditorium	Selected oral communications	Dr Gemma Arroyo Cardona (Dexeus University Hospital; Spain); Chairperson to be announced
Session 66: Cryo reimagined: today's protocols, tomorrow's science	冷冻流程再设计	Tuesday, July 7, 2026 17:00-18:00 Victoria 1-6	Selected oral communications	Ms Mónica Marques (Eugin Coimbra; Portugal); Mr Karan Vadher (United Kingdom)
Session 79: The next-generation IVF laboratory	下一代 IVF 实验室	Wednesday, July 8, 2026 10:00-11:30 Auditorium	Selected oral communications	Dr Sofia Makieva (University Hospital Zurich; Switzerland); Mrs Jen Nisbett (United Kingdom)
Session 83: The Blastocyst story	囊胚发育、质量与结局	Wednesday, July 8, 2026 10:00-11:30 George V 3+4	Selected oral communications	Dr Giovanni Coticchio (IVIRMA Global Research Alliance; Italy); Mrs Hannah Newby (United Kingdom)
Session 90: The perilous bridge between oocyte and embryo life	卵母细胞到胚胎的染色体分离机制	Wednesday, July 8, 2026 11:45-12:45 George V 3+4	Invited session	Dr Sirpa Makinen (Finland); Professor Alan H. Handyside (University of Kent; United Kingdom)
Session 92: What are we putting around our embryos?	胚胎培养微环境与培养液	Wednesday, July 8, 2026 14:00-15:15 Auditorium	Selected oral communications	Dr Georgi Nikolov (MC ReproBioMed Ltd.; Bulgaria); Dr Marta Jansa Perez (United Kingdom)

PCC02: Old habits die hard	胚胎实验室旧习惯再评价	Sunday, July 5, 2026 09:00-17:00 Capital Suite 14-16	Precongress Course	Chairperson to be announced; Dr Nuno Costa-Borges (Embryotools S.L.; Spain); Ms Mónica Marques (Eugin Coimbra; Portugal); Dr Enrica Bianchi (University of Rome 'Tor Vergata'; Italy); Dr Gemma Arroyo Cardona (Dexeus University Hospital; Spain); Professor Roger Sturmey (United Kingdom); Dr Stefano Canosa (IVIRMA Global Research Alliance, LIVET; Italy); Dr Amy Barrie (United Kingdom)
Session 02: Repairing life's first steps	卵母细胞/早期胚胎修复机制	Monday, July 6, 2026 10:00-11:30 Auditorium	Selected oral communications	Dr Enrica Bianchi (University of Rome 'Tor Vergata'; Italy); Professor Roger Sturmey (United Kingdom)
Session 21: Rewriting embryo selection through hidden signals	隐藏信号重写胚胎选择	Monday, July 6, 2026 15:15-16:30 Auditorium	Selected oral communications	Mrs Maria Jose De Los Santos (IVI Valencia; Spain); Dr Bryan Woodward (X&Y Fertility; United Kingdom)

四、专题整理

专题一：AI 驱动的胚胎学、胚胎/卵母细胞评分与实验室质量监控

关注要点：关注 AI 从“胚胎图像评分”走向“实时实验室质量监控、供卵分配优化和机器人操作验证”。适合重点评估公司在 AI 胚胎选择、实验室质控系统、Time-lapse 数据产品中的研发和合作机会。

L26-O-131 免费通用 AI 平台能否可靠预测 IVF 结局：基于图像的胚胎解读与活产结局对照基准研究

English title: Can free-access general-purpose AI platforms reliably predict IVF outcomes? A benchmarking study of image-based embryo interpretation against live-birth results

Schedule / Room	Tuesday, July 7, 2026 10:00-10:15 Auditorium Session 41: AI-Powered embryology
Speaker / Institution	D.A. Ladva (Oasis Fertility, Embryology, Vadodara, India)
Speaker biography	官网 Biography 显示，D.A. Ladva（Oasis Fertility, Embryology, Vadodara, India）主要背景为临床胚胎学家；简介重点涉及 AI/人工智能。核验提示：Biography 文本中自称“Dr. Arth”，与官方报告人字段 D.A. Ladva 不完全一致，建议会前复核。
Why it matters	与 AI 辅助胚胎/卵母细胞评估、实验室 KPI 预警、自动化设备验证和临床结局预测直接相关。

L26-O-132 基于人工智能预测由 GV 期和 MI 期卵母细胞抢救成熟获得的 MII 卵母细胞发育潜能

English title: Artificial intelligence-based prediction of developmental competence in rescued metaphase II oocytes derived from germinal vesicle and metaphase I stages

Schedule / Room	Tuesday, July 7, 2026 10:15-10:30 Auditorium Session 41: AI-Powered embryology
Speaker / Institution	K. Ezoe (Kato Ladies Clinic, R&D Division, Tokyo, Japan)
Speaker biography	官网 Biography 显示，K. Ezoe（Kato Ladies Clinic, R&D Division, Tokyo, Japan）主要背景为科研人员；简介重点涉及 AI/人工智能、冷冻保存、卵母细胞、囊胚发育。
Why it matters	与 AI 辅助胚胎/卵母细胞评估、实验室 KPI 预警、自动化设备验证和临床结局预测直接相关。

L26-O-134 ROSE：AI 支持的供卵管理流程系统较随机分配可降低完全囊胚形成失败风险

English title: ROSE, an artificial intelligence (AI) supported workflow system for optimizing donor oocyte management, reduces chances of complete blastulation failure compared with random lot assignment

Schedule / Room	Tuesday, July 7, 2026 10:45-11:00 Auditorium Session 41: AI-Powered embryology
Speaker / Institution	L. Vanzella (Future Fertility, Scientific Operations, Toronto, Canada)
Speaker biography	官网 Biography 显示，L. Vanzella（Future Fertility, Scientific Operations, Toronto, Canada）主要背景为生殖医学/胚胎学相关专业人员；简介重点涉及 AI/人工智能、卵母细胞。
Why it matters	与 AI 辅助胚胎/卵母细胞评估、实验室 KPI 预警、自动化设备验证和临床结局预测直接相关。

L26-O-135 基于 Time-lapse 胚胎特征的 IVF 实验室实时预测性预警系统

English title: A real-time predictive alert system for monitoring IVF laboratory performance using time-lapse-derived embryo features.

Schedule / Room	Tuesday, July 7, 2026 11:00-11:15 Auditorium Session 41: AI-Powered embryology
Speaker / Institution	L. Bori (IVIRMA Global Research Alliance- IVIRMA Valencia, IVI Foundation- Instituto de Investigación Sanitaria La Fe, Valencia, Spain)
Speaker biography	官网 Biography 显示，L. Bori（IVIRMA Global Research Alliance- IVIRMA Valencia, IVI Foundation- Instituto de Investigación Sanitaria La Fe, Valencia, Spain）主要背景为博士后研究人员、科研人员；简介重点涉及 AI/人工智能、Time-lapse 胚胎观察、实验室质量控制。有同行评议论文发表经历。
Why it matters	与 AI 辅助胚胎/卵母细胞评估、实验室 KPI 预警、自动化设备验证和临床结局预测直接相关。

L26-O-136 传统形态学评级与 AI 囊胚评估：评级不一致的发生率及妊娠率分析

English title: Conventional morphological grading and AI blastocyst assessment: Prevalence of grading discordance and analysis of pregnancy rates

Schedule / Room	Tuesday, July 7, 2026 11:15-11:30 Auditorium Session 41: AI-Powered embryology
Speaker / Institution	E. Krasnitsky (Assuta Medical Center Tel Aviv Israel, ivf, Tel Aviv, Israel)
Speaker biography	官网 Biography 显示，E. Krasnitsky（Assuta Medical Center Tel Aviv Israel, ivf, Tel Aviv, Israel）主要背景为临床胚胎学家；简介重点涉及 AI/人工智能、囊胚发育。
Why it matters	与 AI 辅助胚胎/卵母细胞评估、实验室 KPI 预警、自动化设备验证和临床结局预测直接相关。

L26-O-262 AI 卵母细胞质量评分在意大利人群中的首次外部验证：20454 枚卵母细胞的囊胚发育与临床结局关联

English title: First external validation of an artificial intelligence-based oocyte quality score in an Italian population: association with blastocyst development and clinical outcomes from 20,454 oocytes.

Schedule / Room	Wednesday, July 8, 2026 10:00-10:15 Auditorium Session 79: The next-generation IVF laboratory
Speaker / Institution	L. Mura (Clinica Eugin Torino- Centro PMA Clinica Sedes Sapientiae, IVF Center, Torino, Italy)
Speaker biography	官网 Biography 显示，L. Mura（Clinica Eugin Torino- Centro PMA Clinica Sedes Sapientiae, IVF Center, Torino, Italy）主要背景为实验室主任/胚胎实验室管理者、临床胚胎学家；简介重点涉及 AI/人工智能、Time-lapse 胚胎观察、冷冻保存、卵母细胞。具备 ESHRE 认证/认可背景。
Why it matters	与 AI 辅助胚胎/卵母细胞评估、实验室 KPI 预警、自动化设备验证和临床结局预测直接相关。

L26-O-263 用于 IVF 实验室个体化连续质量监控的近实时自适应机器学习

English title: Near-real-time adaptive machine learning for personalized continuous quality monitoring in IVF laboratories

Schedule / Room	Wednesday, July 8, 2026 10:15-10:30 Auditorium Session 79: The next-generation IVF laboratory
Speaker / Institution	E. Güell Penas (CONSULTFIV Data Science, r&d, Valls, Spain)
Speaker biography	官网 Biography 显示，E. Güell Penas（CONSULTFIV Data Science, r&d, Valls, Spain）主要背景为企业创始人/高管或转化负责人；简介重点涉及辅助生殖相关临床或研究工作。
Why it matters	与 AI 辅助胚胎/卵母细胞评估、实验室 KPI 预警、自动化设备验证和临床结局预测直接相关。

L26-O-264 卵母细胞和胚胎操作中视觉引导机器人微量移液管跟踪的精度量化与工作负荷降低：ART 实验室自动化基础验证

English title: Quantified precision and reduced workload using vision-guided robotic micropipette tracking during oocyte and embryo handling: foundational validation for assisted reproductive technology laboratory automation

Schedule / Room	Wednesday, July 8, 2026 10:30-10:45 Auditorium Session 79: The next-generation IVF laboratory
Speaker / Institution	H. Tian (King's College London, School of Biomedical Engineering & Imaging Sciences, London, United Kingdom)
Speaker biography	官网 Biography 显示，H. Tian（King's College London, School of Biomedical Engineering & Imaging Sciences, London, United Kingdom）主要背景为博士后研究人员、科研人员；简介重点涉及卵母细胞、机器人/自动化。
Why it matters	与 AI 辅助胚胎/卵母细胞评估、实验室 KPI 预警、自动化设备验证和临床结局预测直接相关。

专题二：PGT-A、滋养外胚层活检、嵌合体与整倍体胚胎移植决策

关注要点：围绕 PGT-A 的适用人群、嵌合体解释、活检时机、囊胚孵出状态和 Day 5/Day 6 整倍体胚胎可比性。对 PGT-A 临床解释、胚胎实验室流程和遗传咨询均有直接价值。

L26-O-159 POSEIDON 4 组患者行 PGT-A：获益还是伤害？

English title: Preimplantation genetic testing for aneuploidy in POSEIDON Group 4: benefit or harm?

Schedule / Room	Tuesday, July 7, 2026 10:00-10:15 George V 3+4 Session 45: The PGT-A story starts at the biopsy
Speaker / Institution	X. Liu (Northwest women's and children's hospital, assisted reproduction center, Xi'an, China)
Speaker biography	官网 Biography 显示，X. Liu（Northwest women's and children's hospital, assisted reproduction center, Xi'an, China）主要背景为生殖医学/胚胎学相关专业人员；简介重点涉及非整倍体、着床。
Why it matters	直接影响 PGT-A 适应证、TE biopsy 操作窗口、嵌合结果解读和整倍体胚胎移植优先级。

L26-O-160 PGT-A 后高级别嵌合的临床意义：片段性嵌合非整倍体可导致意外活产结局

English title: Clinical relevance of high-level mosaicism after PGT-A: mosaic segmental aneuploidies drive unexpected live birth outcomes

Schedule / Room	Tuesday, July 7, 2026 10:15-10:30 George V 3+4 Session 45: The PGT-A story starts at the biopsy
Speaker / Institution	F. Spinella (Saint Camillus International University of Health Sciences and Eurofins Genoma and Member of IRMET, Department of Applied Biology and Genetics, Roma, Italy)
Speaker biography	官网 Biography 显示，F. Spinella（Saint Camillus International University of Health Sciences and Eurofins Genoma and Member of IRMET, Department of Applied Biology and Genetics, Roma, Italy）主要背景为高校/研究机构教授或研究人员；简介重点涉及 AI/人工智能、生殖遗传学、PGT/胚胎植入前遗传学检测、活产结局。有同行评议论文发表经历。

Why it matters	直接影响 PGT-A 适应证、TE biopsy 操作窗口、嵌合结果解读和整倍体胚胎移植优先级。
-----------------------	--

L26-O-161 40 岁及以上使用自体卵母细胞女性行 PGT-A 辅助生殖的结局

English title: The outcomes of assisted reproductive technology with preimplantation genetic testing for aneuploidy in women aged 40 and older using their own oocytes.

Schedule / Room	Tuesday, July 7, 2026 10:30-10:45 George V 3+4 Session 45: The PGT-A story starts at the biopsy
Speaker / Institution	Y. Alhelou (Fakih IVF Fertility Center, IVF Department, Abu Dhabi, United Arab Emirates)
Speaker biography	官网 Biography 显示, Y. Alhelou (Fakih IVF Fertility Center, IVF Department, Abu Dhabi, United Arab Emirates) 主要背景为生殖医学/胚胎学相关专业人员; 简介重点涉及卵母细胞、非整倍体、着床。
Why it matters	直接影响 PGT-A 适应证、TE biopsy 操作窗口、嵌合结果解读和整倍体胚胎移植优先级。

L26-O-162 未孵出囊胚与正在/已经孵出的囊胚行滋养外胚层活检用于 PGT: 是否影响结果?

English title: Trophoctoderm biopsy for preimplantation genetic testing (PGT) on unhatched blastocyst-stage embryos versus blastocysts that are hatching or hatched from the zona pellucida: does it matter?

Schedule / Room	Tuesday, July 7, 2026 10:45-11:00 George V 3+4 Session 45: The PGT-A story starts at the biopsy
Speaker / Institution	S. Daneshmand (San Diego Fertility Center, Physician, San Diego, U.S.A)
Speaker biography	官网 Biography 显示, S. Daneshmand (San Diego Fertility Center, Physician, San Diego, U.S.A) 主要背景为生殖医学/胚胎学相关专业人员; 简介重点涉及 AI/人工智能、PGT/胚胎植入前遗传学检测、囊胚发育、着床。
Why it matters	直接影响 PGT-A 适应证、TE biopsy 操作窗口、嵌合结果解读和整倍体胚胎移植优先级。

L26-O-163 滋养外胚层活检的精确时间可预测倍性和整倍体胚胎结局: 基于操作者无关 RFID 见证系统的连续分析

English title: Precise time to trophoctoderm biopsy predicts ploidy and euploid embryo outcomes: a continuous analysis using operator-independent radiofrequency identification witnessing

Schedule / Room	Tuesday, July 7, 2026 11:00-11:15 George V 3+4 Session 45: The PGT-A story starts at the biopsy
Speaker / Institution	A. Quintana-Vehi (Eugin Clinic, Clinical Embryology, Barcelona, Spain)
Speaker biography	官网 Biography 显示, A. Quintana-Vehi (Eugin Clinic, Clinical Embryology, Barcelona, Spain) 主要背景为临床胚胎学家; 简介重点涉及辅助生殖相关临床或研究工作。

Why it matters	直接影响 PGT-A 适应证、TE biopsy 操作窗口、嵌合结果解读和整倍体胚胎移植优先级。
-----------------------	--

L26-O-164 质量相同、时间不同：形态相当的 Day 6 与 Day 5 整倍体胚胎是否具有相似生殖潜能？

English title: Same quality, different timing: Do Day 6 and Day 5 euploid embryos with equivalent morphology have comparable reproductive potential?

Schedule / Room	Tuesday, July 7, 2026 11:15-11:30 George V 3+4 Session 45: The PGT-A story starts at the biopsy
Speaker / Institution	A.R. Lorenzon (Huntington Medicina Reprodutiva - Eugin Group, R&D Department, São Paulo, Brazil)
Speaker biography	官网 Biography 显示，A.R. Lorenzon（Huntington Medicina Reprodutiva - Eugin Group, R&D Department, São Paulo, Brazil）主要背景为博士后研究人员；简介重点涉及 AI/人工智能、胚胎选择、着床、子宫内膜。
Why it matters	直接影响 PGT-A 适应证、TE biopsy 操作窗口、嵌合结果解读和整倍体胚胎移植优先级。

专题三：隐藏信号与非侵入式胚胎选择：RNA、分泌组、cfDNA、胞质动力学和三维结构

关注要点：从传统形态学转向囊胚腔液 RNA、胚胎分泌组、复温后 cfDNA、胞质速度、胞质丝、三维滋养外胚层结构和 Time-lapse 动态。该专题对未来非侵入式胚胎选择证据链建设尤其重要。

L26-O-133 超越发育里程碑：以最大扩张和收缩动态作为 1770 枚 PGT-A 囊胚整倍性标志物

English title: Beyond developmental milestones: maximum expansion and contraction dynamics as euploidy markers in 1,770 PGT-A blastocysts

Schedule / Room	Tuesday, July 7, 2026 10:30-10:45 Auditorium Session 41: AI-Powered embryology
Speaker / Institution	J. Fraire-Zamora (Eugin Clinic, Research and Development, Barcelona, Spain)
Speaker biography	官网 Biography 显示，J. Fraire-Zamora（Eugin Clinic, Research and Development, Barcelona, Spain）主要背景为生殖医学/胚胎学相关专业人员；简介重点涉及 AI/人工智能、PGT/胚胎植入前遗传学检测、囊胚发育。
Why it matters	体现胚胎选择从单点形态学向多模态信号、转录组/分泌组和结构参数整合转变。

L26-O-073 囊胚腔液 RNA 可预测辅助生殖妊娠结局

English title: Blastocoel fluid RNA predicts pregnancy outcome in assisted reproduction

Schedule / Room	Monday, July 6, 2026 15:15-15:30 Auditorium Session 21: Rewriting embryo selection through hidden signals
Speaker / Institution	C. Frisendahl (Karolinska institutet, Department of Women's and Children's health, Stockholm, Sweden)

Speaker biography	官网 Biography 显示, C. Frisendahl (Karolinska institutet, Department of Women's and Children's health, Stockholm, Sweden) 主要背景为博士研究生/博士阶段研究者; 简介重点涉及辅助生殖相关临床或研究工作。
Why it matters	体现胚胎选择从单点形态学向多模态信号、转录组/分泌组和结构参数整合转变。

L26-O-075 卵母细胞和胚胎胞质速度作为发育潜能标志物：分阶段分析提供不同见解

English title: Cytoplasmic speed in oocytes and embryos as a marker of developmental potential: stage-specific analyses offer distinct insights.

Schedule / Room	Monday, July 6, 2026 15:45-16:00 Auditorium Session 21: Rewriting embryo selection through hidden signals
Speaker / Institution	A. Ajduk (University of Warsaw, Faculty of Biology, Warsaw, Poland)
Speaker biography	官网 Biography 显示, A. Ajduk (University of Warsaw, Faculty of Biology, Warsaw, Poland) 主要背景为高校/研究机构教授或研究人员、博士后研究人员; 简介重点涉及 AI/人工智能、卵母细胞、受精机制。
Why it matters	体现胚胎选择从单点形态学向多模态信号、转录组/分泌组和结构参数整合转变。

L26-O-076 复温后 cfDNA 释放可作为冻融胚胎移植中着床和活产标志物

English title: Post-warming cfDNA release as a marker of implantation and live birth in frozen embryo transfer

Schedule / Room	Monday, July 6, 2026 16:00-16:15 Auditorium Session 21: Rewriting embryo selection through hidden signals
Speaker / Institution	S. Marqueño Aroca (IVIRMA Global Research Alliance - IVIRMA Valencia, Research and Innovation, Valencia, Spain)
Speaker biography	官网 Biography 显示, S. Marqueño Aroca (IVIRMA Global Research Alliance - IVIRMA Valencia, Research and Innovation, Valencia, Spain) 主要背景为博士研究生/博士阶段研究者、科研人员; 简介重点涉及 AI/人工智能、着床、活产结局。
Why it matters	体现胚胎选择从单点形态学向多模态信号、转录组/分泌组和结构参数整合转变。

L26-O-077 选择具有胞质丝的单枚整倍体囊胚移植可改善 PGT-A 患者临床结局：前瞻性临床研究

English title: Selection of single euploid blastocysts with cytoplasmic strings for transfer improved clinical outcomes for patients undergoing preimplantation genetic testing for aneuploid: a prospective clinical study

Schedule / Room	Monday, July 6, 2026 16:15-16:30 Auditorium Session 21: Rewriting embryo selection through hidden signals
Speaker / Institution	Z. Yang (Tang IVF Hospital, art and genetics, Bishkek, Kyrgyzstan)
Speaker biography	官网 Biography 显示, Z. Yang (Tang IVF Hospital, art and genetics, Bishkek, Kyrgyzstan) 主要背景为高校/研究机构教授或研究人员、企业创始人/高管或转化负责人; 简介重点涉及 AI/人工智能、生殖遗传学、囊胚发育、着床。
Why it matters	体现胚胎选择从单点形态学向多模态信号、转录组/分泌组和结构参数整合转变。

L26-O-288 基于 Time-lapse 的三维囊胚重建获得滋养外胚层结构参数：对临床结局和活产结局的影响

English title: Trophectoderm structural parameters from time-lapse-based 3D blastocyst reconstruction: impacts on clinical and live birth outcomes

Schedule / Room	Wednesday, July 8, 2026 10:30-10:45 George V 3+4 Session 83: The Blastocyst story
Speaker / Institution	B. Huang (Huazhong University of Science and Technology, Reproductive Medicine Center- Tongji Hospital- Tongji Medical College, Wuhan- Hubei, China)
Speaker biography	官网 Biography 显示，B. Huang（Huazhong University of Science and Technology, Reproductive Medicine Center- Tongji Hospital- Tongji Medical College, Wuhan- Hubei, China）主要背景为实验室主任/胚胎实验室管理者；简介重点涉及 AI/人工智能、Time-lapse 胚胎观察、卵母细胞、囊胚发育。简介提及具有 15 年以上相关经验。
Why it matters	体现胚胎选择从单点形态学向多模态信号、转录组/分泌组和结构参数整合转变。

L26-O-289 内膜厚度与胎心之间的非线性关联：薄型内膜中滋养外胚层质量可能发挥作用

English title: Non-linear association between endometrial thickness and fetal heartbeat, with a potential role for trophectoderm quality under thin endometrium

Schedule / Room	Wednesday, July 8, 2026 10:45-11:00 George V 3+4 Session 83: The Blastocyst story
Speaker / Institution	H.J. Lee (Kai Health, Chief Executive Officer, Seoul, Korea- South)
Speaker biography	官网 Biography 显示，H.J. Lee（Kai Health, Chief Executive Officer, Seoul, Korea- South）主要背景为企业创始人/高管或转化负责人、生殖医学/妇产科临床医生；简介重点涉及 AI/人工智能、子宫内膜。
Why it matters	体现胚胎选择从单点形态学向多模态信号、转录组/分泌组和结构参数整合转变。

L26-O-290 区分胚胎稀缺与生殖能力：POSEIDON 3 组累积活产的中介分析

English title: Disentangling embryo scarcity from reproductive competence in POSEIDON Group 3: a mediation-based analysis of cumulative live birth

Schedule / Room	Wednesday, July 8, 2026 11:00-11:15 George V 3+4 Session 83: The Blastocyst story
Speaker / Institution	V. Yakasiri (OASIS FERTILITY, Clinical, HYDERABAD, India)
Speaker biography	官网 Biography 显示，V. Yakasiri（OASIS FERTILITY, Clinical, HYDERABAD, India）主要背景为生殖医学/妇产科临床医生；简介重点涉及 AI/人工智能、活产结局。简介提及具有 20 年以上相关经验。
Why it matters	体现胚胎选择从单点形态学向多模态信号、转录组/分泌组和结构参数整合转变。

L26-O-291 探索不同发育阶段、受精方式和亲代背景下人囊胚谱系特异性转录组景观

English title: Exploring lineage-specific transcriptomic landscapes of the human blastocyst across developmental, fertilisation method and parental contexts

Schedule / Room	Wednesday, July 8, 2026 11:15-11:30 George V 3+4 Session 83: The Blastocyst story
Speaker / Institution	L. Ferreux (Assistance Publique-Hôpitaux de Paris AP-HP- aphp.centre-Universite- Paris Cité, Department of Reproductive Biology-CECOS, Paris, France)
Speaker biography	官网 Biography 显示, L. Ferreux (Assistance Publique-Hôpitaux de Paris AP-HP- aphp.centre-Universite- Paris Cité, Department of Reproductive Biology-CECOS, Paris, France) 主要背景为临床胚胎学家; 简介重点涉及囊胚发育、受精机制、转录组、着床。
Why it matters	体现胚胎选择从单点形态学向多模态信号、转录组/分泌组和结构参数整合转变。

专题四：卵母细胞成熟、染色体分离和早期胚胎修复机制

关注要点：关注卵母细胞老化、第一次有丝分裂错误、非整倍体/嵌合产生机制、NMN 抢救、miRNA 调控、染色体排列保护和红氧/线粒体限制。对卵母细胞质量评估、抗氧化/代谢干预和基础转化研究价值较高。

L26-O-004 恢复 Shugoshin-1 可防止老龄人卵母细胞中的染色体错误

English title: Restoring Shugoshin-1 prevents chromosomal errors in ageing human oocytes

Schedule / Room	Monday, July 6, 2026 10:00-10:15 Auditorium Session 02: Repairing life's first steps
Speaker / Institution	A. Zielinska (Ovo Labs, Research & Development, Munich, Germany)
Speaker biography	官网 Biography 显示, A. Zielinska (Ovo Labs, Research & Development, Munich, Germany) 主要背景为生殖医学/妇产科临床医生; 简介重点涉及 AI/人工智能、卵母细胞。
Why it matters	与卵母细胞质量、年龄相关非整倍性、代谢/抗氧化干预和早期胚胎修复机制高度相关。

L26-O-005 为何第一次有丝分裂中形成形态双极纺锤体的人合子会发生多核化：连接低纺锤体 AR、中期板扩散和后期晚期离散

English title: Why human zygotes that form morphologically bipolar spindles during the first mitosis multinucleate: linking low spindle AR, metaphase plate spread, and late-anaphase dispersion

Schedule / Room	Monday, July 6, 2026 10:15-10:30 Auditorium Session 02: Repairing life's first steps
Speaker / Institution	Y. Ono (Akita University Graduate School of Medicine, Department of Obstetrics and Gynecology, Akita, Japan)
Speaker biography	官网 Biography 显示, Y. Ono (Akita University Graduate School of Medicine, Department of Obstetrics and Gynecology, Akita, Japan) 主要背景为生殖医学/胚胎学相关专业人员; 简介重点涉及辅助生殖相关临床或研究工作。
Why it matters	与卵母细胞质量、年龄相关非整倍性、代谢/抗氧化干预和早期胚胎修复机制高度相关。

L26-O-006 增强卵母细胞抢救：NMN 恢复高龄女性预后不良 GV 卵母细胞的能力

English title: Boosting Oocyte Rescue: Nicotinamide Mononucleotide (NMN) Restores the Competence of Poor-Prognosis GV Oocytes in Aged Women

Schedule / Room	Monday, July 6, 2026 10:30-10:45 Auditorium Session 02: Repairing life's first steps
Speaker / Institution	C. Rodríguez Varela (IVI Foundation- Instituto de Investigación Sanitaria La Fe IIS La Fe, Research - Embryology, Valencia, Spain)
Speaker biography	官网 Biography 显示，C. Rodríguez Varela（IVI Foundation- Instituto de Investigación Sanitaria La Fe IIS La Fe, Research - Embryology, Valencia, Spain）主要背景为临床胚胎学家；简介重点涉及 AI/人工智能、卵母细胞。
Why it matters	与卵母细胞质量、年龄相关非整倍性、代谢/抗氧化干预和早期胚胎修复机制高度相关。

L26-O-007 降低人胚胎嵌合非整倍性和第一次有丝分裂错误

English title: Attenuation of mosaic aneuploidy and erroneous first mitotic division of human embryos

Schedule / Room	Monday, July 6, 2026 10:45-11:00 Auditorium Session 02: Repairing life's first steps
Speaker / Institution	C. Currie (University of Warwick, Warwick Medical School, Coventry, United Kingdom)
Speaker biography	官网 Biography 显示，C. Currie（University of Warwick, Warwick Medical School, Coventry, United Kingdom）主要背景为高校/研究机构教授或研究人员；简介重点涉及 AI/人工智能、卵母细胞、非整倍体、着床。核验提示：Biography 主体为 Aleksandra，和官方报告人字段 C. Currie 可能存在对应关系需核验。
Why it matters	与卵母细胞质量、年龄相关非整倍性、代谢/抗氧化干预和早期胚胎修复机制高度相关。

L26-O-008 通过 METAPHOR 代谢成像和五个生化-细胞器标志物实现稳健的非侵入性人卵母细胞成熟与年龄分类

English title: Robust non-invasive human oocyte maturation and age classification through METAPHOR metabolic imaging and five biochemical-organelle biomarkers

Schedule / Room	Monday, July 6, 2026 11:00-11:15 Auditorium Session 02: Repairing life's first steps
Speaker / Institution	O. Massafret (Institut de Bioenginyeria de Catalunya, Bioengineering in Reproductive Health, Barcelona, Spain)
Speaker biography	官网 Biography 显示，O. Massafret（Institut de Bioenginyeria de Catalunya, Bioengineering in Reproductive Health, Barcelona, Spain）主要背景为生殖医学/胚胎学相关专业人员；简介重点涉及卵母细胞、生殖生物工程、着床、代谢成像/代谢功能。核验提示：Biography 为第一人称 IBEC 课题组介绍，和官方报告人字段 O. Massafret 的对应关系建议核验。
Why it matters	与卵母细胞质量、年龄相关非整倍性、代谢/抗氧化干预和早期胚胎修复机制高度相关。

L26-O-009 人卵丘细胞来源 miRNA 调控卵母细胞成熟和发育潜能相关通路

English title: Human cumulus cell-derived miRNAs regulate pathways underlying oocyte maturation and developmental competence

Schedule / Room	Monday, July 6, 2026 11:15-11:30 Auditorium Session 02: Repairing life's first steps
Speaker / Institution	G. Brazzale (University of Pavia, Department of Biology and Biotechnology "Lazzaro Spallanzani", Pavia, Italy)
Speaker biography	官网 Biography 显示，G. Brazzale（University of Pavia, Department of Biology and Biotechnology "Lazzaro Spallanzani", Pavia, Italy）主要背景为博士研究生/博士阶段研究者；简介重点涉及 AI/人工智能、卵母细胞、miRNA。
Why it matters	与卵母细胞质量、年龄相关非整倍性、代谢/抗氧化干预和早期胚胎修复机制高度相关。

L26-O-307 保护卵母细胞染色体排列：动粒冠的作用

English title: Safeguarding chromosome alignment in oocytes: role of the kinetochore corona

Schedule / Room	Wednesday, July 8, 2026 11:45-12:05 George V 3+4 Session 90: The perilous bridge between oocyte and embryo life
Speaker / Institution	A. Marston (University of Edinburgh, Centre for Cell Biology- School of Biological Sciences, Edinburgh, United Kingdom)
Speaker biography	官网 Biography 显示，A. Marston（University of Edinburgh, Centre for Cell Biology- School of Biological Sciences, Edinburgh, United Kingdom）主要背景为高校/研究机构教授或研究人员、博士后研究人员；简介重点涉及 AI/人工智能、卵母细胞、染色体分离/非整倍体、精子生物学。
Why it matters	与卵母细胞质量、年龄相关非整倍性、代谢/抗氧化干预和早期胚胎修复机制高度相关。

L26-O-308 哺乳动物卵母细胞染色体分离中的肌动蛋白和肌球蛋白依赖机制

English title: Actin- and myosin-dependent mechanisms of chromosome segregation in mammalian oocytes

Schedule / Room	Wednesday, July 8, 2026 12:15-12:35 George V 3+4 Session 90: The perilous bridge between oocyte and embryo life
Speaker / Institution	K. Harasimov (Max Planck Institute for Multidisciplinary Sciences, Meiosis, Göttingen, Germany)
Speaker biography	官网 Biography 显示，K. Harasimov（Max Planck Institute for Multidisciplinary Sciences, Meiosis, Göttingen, Germany）主要背景为博士后研究人员；简介重点涉及 AI/人工智能、卵母细胞、染色体分离/非整倍体。核验提示：Biography 主体为 Melina Schuh，与官方报告人字段 K. Harasimov 不完全一致，建议会前复核。
Why it matters	与卵母细胞质量、年龄相关非整倍性、代谢/抗氧化干预和早期胚胎修复机制高度相关。

L26-O-313 单卵母细胞转录组揭示人抢救体外成熟过程中的氧化还原和线粒体相关限制，并提示抗氧化补充的调节效应

English title: Single-oocyte transcriptomics reveals redox- and mitochondria-related constraints during human rescue in vitro maturation and provides evidence for a modulating effect of antioxidant supplementation

Schedule / Room	Wednesday, July 8, 2026 15:00-15:15 Auditorium Session 92: What are we putting around our embryos?
Speaker / Institution	M. Esbert (IVI Barcelona, IVF laboratory, Barcelona, Spain)
Speaker biography	官网 Biography 显示，M. Esbert（IVI Barcelona, IVF laboratory, Barcelona, Spain）主要背景为临床胚胎学家；简介重点涉及 AI/人工智能、卵母细胞、线粒体功能、氧化还原。
Why it matters	与卵母细胞质量、年龄相关非整倍性、代谢/抗氧化干预和早期胚胎修复机制高度相关。

专题五：胚胎培养微环境：培养基、氧张力、透明质酸、三维共培养与微流控培养装置

关注要点：聚焦“胚胎周围到底放了什么”：培养基成分差异、氧张力旧习惯、透明质酸胚胎移植液、三维共培养分泌组和微流控培养装置。与培养液研发、抗氧化添加、培养体系质控高度契合。

L26-PCC-009 从液滴到王朝：胚胎培养基的演变

English title: From drops to dynasties: the evolution of embryo culture media

Schedule / Room	Sunday, July 5, 2026 09:00-09:30 Capital Suite 14-16 PCC02: Old habits die hard
Speaker / Institution	Dr Jason Swain (CCRM Fertility; U.S.A.)
Speaker biography	官网材料未提供 Dr Jason Swain（CCRM Fertility; U.S.A.）的 Biography；已保留报告人姓名和机构字段，建议会前在官网或会议 App 中复核。
Why it matters	与胚胎培养液、培养条件、培养体系标准化和可转化产品研发直接相关。

L26-PCC-010 重新思考氧气：旧习惯与最佳培养条件

English title: Rethinking oxygen: old habits vs. optimal culture conditions

Schedule / Room	Sunday, July 5, 2026 09:45-10:15 Capital Suite 14-16 PCC02: Old habits die hard
Speaker / Institution	Professor Roger Sturmey (United Kingdom)
Speaker biography	官网 Biography 显示，Professor Roger Sturmey（United Kingdom）主要背景为高校/研究机构教授或研究人员、科研人员；简介重点涉及 AI/人工智能、卵母细胞、代谢成像/代谢功能。
Why it matters	与胚胎培养液、培养条件、培养体系标准化和可转化产品研发直接相关。

L26-PCC-014 胚胎不再受限：延长培养正在告诉我们什么

English title: Embryos unbound: what extended culture is teaching us

Schedule / Room	Sunday, July 5, 2026 14:15-14:45 Capital Suite 14-16 PCC02: Old habits die hard
-----------------	---

Speaker / Institution	Mrs Maria Jose De Los Santos (IVI Valencia; Spain)
Speaker biography	官网 Biography 显示，Mrs Maria Jose De Los Santos（IVI Valencia; Spain）主要背景为实验室主任/胚胎实验室管理者；简介重点涉及辅助生殖相关临床或研究工作。
Why it matters	与胚胎培养液、培养条件、培养体系标准化和可转化产品研发直接相关。

L26-O-309 商业化培养基在人植入前胚胎发育中的比较蛋白质组学分析

English title: Comparative proteomic analysis of commercially available culture media for human preimplantation embryo development

Schedule / Room	Wednesday, July 8, 2026 14:00-14:15 Auditorium Session 92: What are we putting around our embryos?
Speaker / Institution	M. Zagers (Leiden University Medical Center, Reproductive Center, Leiden, The Netherlands)
Speaker biography	官网 Biography 显示，M. Zagers（Leiden University Medical Center, Reproductive Center, Leiden, The Netherlands）主要背景为临床胚胎学家；简介重点涉及 AI/人工智能、着床。
Why it matters	与胚胎培养液、培养条件、培养体系标准化和可转化产品研发直接相关。

L26-O-310 富含透明质酸胚胎移植液在单囊胚移植女性中的疗效：多中心随机对照试验

English title: The efficacy of hyaluronic acid enriched embryo transfer medium in women undergoing single blastocyst transfer: a multicentre randomised controlled trial

Schedule / Room	Wednesday, July 8, 2026 14:15-14:30 Auditorium Session 92: What are we putting around our embryos?
Speaker / Institution	H. CAI (Northwest Women's and Children's Hospital, Reproductive Center, Xi'an, China)
Speaker biography	官网 Biography 显示，H. CAI（Northwest Women's and Children's Hospital, Reproductive Center, Xi'an, China）主要背景为生殖医学/胚胎学相关专业人员；简介重点涉及 AI/人工智能、囊胚发育、着床。
Why it matters	与胚胎培养液、培养条件、培养体系标准化和可转化产品研发直接相关。

L26-O-266 用于改善胚胎质量和辅助受孕妊娠结局的新型微流控胚胎培养装置的有效性和安全性评估

English title: Evaluation of the efficacy and safety of a novel, microfluidic embryo culture device designed to improve embryo quality and pregnancy outcome during assisted conception treatment

Schedule / Room	Wednesday, July 8, 2026 11:00-11:15 Auditorium Session 79: The next-generation IVF laboratory
Speaker / Institution	V. Pensabene (University of Leeds, School of Electronic and Electrical Engineering, Leeds, United Kingdom)
Speaker biography	官网 Biography 显示，V. Pensabene（University of Leeds, School of Electronic and Electrical Engineering, Leeds, United Kingdom）主要背景为企业创始人/高管或转化负责人；简介重点涉及胚胎培养、微流控、生殖生物工程。

Why it matters	与胚胎培养液、培养条件、培养体系标准化和可转化产品研发直接相关。
-----------------------	----------------------------------

L26-O-074 在先进三维子宫内膜共培养中培养至 14 天的整倍体与非整倍体人胚胎具有不同分泌组特征

English title: Different secretome profiles characterize euploid and aneuploid human embryos cultured up to 14 days in advanced 3D endometrial co-culture.

Schedule / Room	Monday, July 6, 2026 15:30-15:45 Auditorium Session 21: Rewriting embryo selection through hidden signals
Speaker / Institution	R. Yagüe Serrano (IVI Foundation - Instituto de Investigación Sanitaria IIS La Fe, Innovation, Valencia, Spain)
Speaker biography	官网 Biography 显示, R. Yagüe Serrano (IVI Foundation - Instituto de Investigación Sanitaria IIS La Fe, Innovation, Valencia, Spain) 主要背景为生殖医学/胚胎学相关专业人员; 简介重点涉及 AI/人工智能、染色体分离/非整倍体。
Why it matters	与胚胎培养液、培养条件、培养体系标准化和可转化产品研发直接相关。

专题六：冷冻、玻璃化、复温与卵母细胞/胚胎冷链流程优化

关注要点：覆盖取卵时微流控找卵、玻璃化短流程、复温-ICSI 间隔、供卵最佳冷冻数量、一步复温、超快速复温、胞质体库和水凝胶芯片半自动玻璃化系统。

L26-O-174 利用微流控在取卵过程中找到所有卵母细胞并完成冷冻保存

English title: Microfluidics to find all your eggs and cryopreserve them during a retrieval

Schedule / Room	Tuesday, July 7, 2026 11:45-12:05 George V 1+2 Session 49: Navigating the cold zone: from microfluidics to faster protocols
Speaker / Institution	Professor Denny Sakkas (Boston IVF; U.S.A.)
Speaker biography	官网 Biography 显示, Professor Denny Sakkas (Boston IVF; U.S.A.) 主要背景为实验室主任/胚胎实验室管理者、高校/研究机构教授或研究人员; 简介重点涉及 AI/人工智能、微流控。
Why it matters	对应胚胎/卵母细胞冷冻、复温流程改良、自动化冷冻平台和生育力保存业务。

L26-O-175 人卵母细胞和胚胎玻璃化及复温后稀释的短流程：经验、教训与结局

English title: Shorter protocols for vitrification and post-warming dilution of human oocytes and embryos: experience, learnings and outcomes

Schedule / Room	Tuesday, July 7, 2026 12:15-12:35 George V 1+2 Session 49: Navigating the cold zone: from microfluidics to faster protocols
Speaker / Institution	M. Gallardo Molina (IVIRMA Global Research Alliance- Ginemed Lisbon, IVF Laboratory, Lisbon, Portugal)

Speaker biography	官网 Biography 显示, M. Gallardo Molina (IVIRMA Global Research Alliance- Ginemed Lisbon, IVF Laboratory, Lisbon, Portugal) 主要背景为临床胚胎学家、高校/研究机构教授或研究人员; 简介重点涉及玻璃化冷冻、卵母细胞。
Why it matters	对应胚胎/卵母细胞冷冻、复温流程改良、自动化冷冻平台和生育力保存业务。

L26-O-193 时间很重要: 3291 枚玻璃化供卵多中心研究显示复温-ICSI 间隔影响卵母细胞存活和囊胚产量

English title: Timing matters: the warming-ICSI interval influences oocyte viability and blastocyst yield in a multicentre study on 3,291 vitrified donor oocytes.

Schedule / Room	Tuesday, July 7, 2026 15:15-15:30 Auditorium Session 59: The clock is ticking in the embryology lab
Speaker / Institution	F. LOLICATO (Fertilab Barcelona, Assisted Reproduction Unit, Barcelona, Spain)
Speaker biography	官网 Biography 显示, F. LOLICATO (Fertilab Barcelona, Assisted Reproduction Unit, Barcelona, Spain) 主要背景为博士后研究人员; 简介重点涉及卵母细胞、囊胚发育。
Why it matters	对应胚胎/卵母细胞冷冻、复温流程改良、自动化冷冻平台和生育力保存业务。

L26-O-223 确定供卵项目中最大化累积活产率所需的最佳玻璃化供卵数量

English title: Defining the optimal number of vitrified donor oocytes to maximise cumulative live birth rates in oocyte donation programmes

Schedule / Room	Tuesday, July 7, 2026 17:00-17:15 Victoria 1-6 Session 66: Cryo reimagined: today's protocols, tomorrow's science
Speaker / Institution	C. de Lima (Origen Rio, Laboratory, Rio de Janeiro, Brazil)
Speaker biography	官网 Biography 显示, C. de Lima (Origen Rio, Laboratory, Rio de Janeiro, Brazil) 主要背景为临床胚胎学家; 简介重点涉及卵母细胞、活产结局。
Why it matters	对应胚胎/卵母细胞冷冻、复温流程改良、自动化冷冻平台和生育力保存业务。

L26-O-224 自体玻璃化卵母细胞一步复温与新鲜同胞卵及常规复温比较: AI 形态学评估和临床结局

English title: One-step warming of autologous vitrified oocytes versus fresh sibling and conventional warming: AI-based morphological assessment and clinical outcomes

Schedule / Room	Tuesday, July 7, 2026 17:15-17:30 Victoria 1-6 Session 66: Cryo reimagined: today's protocols, tomorrow's science
Speaker / Institution	A. Cobo (IVIRMA Global Research Alliance- IVI Valencia, Cryopreservation, Valencia, Spain)
Speaker biography	官网 Biography 显示, A. Cobo (IVIRMA Global Research Alliance- IVI Valencia, Cryopreservation, Valencia, Spain) 主要背景为生殖医学/胚胎学相关专业人员; 简介重点涉及 AI/人工智能、冷冻保存、玻璃化冷冻、卵母细胞。简介提及具有 20 年以上相关经验。
Why it matters	对应胚胎/卵母细胞冷冻、复温流程改良、自动化冷冻平台和生育力保存业务。

L26-O-225 超快速复温可改善玻璃化卵母细胞的囊胚发育：单中心研究

English title: Ultra-fast warming improves blastocyst development in vitrified oocytes: a monocenter study

Schedule / Room	Tuesday, July 7, 2026 17:30-17:45 Victoria 1-6 Session 66: Cryo reimagined: today's protocols, tomorrow's science
Speaker / Institution	S. Yaacobi-Artzi (Assuta Medical Center, The IVF Unit, Tel-Aviv, Israel)
Speaker biography	官网 Biography 显示，S. Yaacobi-Artzi（Assuta Medical Center, The IVF Unit, Tel-Aviv, Israel）主要背景为临床胚胎学家；简介重点涉及卵母细胞、囊胚发育。有同行评议论文发表经历。
Why it matters	对应胚胎/卵母细胞冷冻、复温流程改良、自动化冷冻平台和生育力保存业务。

L26-O-226 玻璃化-复温去核卵母细胞的发育潜能支持在小鼠模型中建立冷冻胞质体库用于母源纺锤体移植的可行性

English title: Developmental competence of vitrified-warmed enucleated oocytes supports the feasibility of using a bank of cryopreserved cytoplasts for maternal spindle transfer in a mouse model

Schedule / Room	Tuesday, July 7, 2026 17:45-18:00 Victoria 1-6 Session 66: Cryo reimagined: today's protocols, tomorrow's science
Speaker / Institution	N. Costa-Borges (Embryotools S.L., R&D, Barcelona, Spain)
Speaker biography	官网 Biography 显示，N. Costa-Borges（Embryotools S.L., R&D, Barcelona, Spain）主要背景为临床胚胎学家、企业创始人/高管或转化负责人；简介重点涉及 AI/人工智能、卵母细胞、囊胚发育、活产结局。简介提及其具有 18 年以上相关经验。
Why it matters	对应胚胎/卵母细胞冷冻、复温流程改良、自动化冷冻平台和生育力保存业务。

L26-O-265 基于新型水凝胶芯片的半自动玻璃化系统用于人和小鼠卵母细胞冷冻保存的评估：从存活到活产

English title: Evaluation of a semi-automated vitrification system based on a novel hydrogel chip for human and mouse oocyte cryopreservation: from survival to live birth

Schedule / Room	Wednesday, July 8, 2026 10:45-11:00 Auditorium Session 79: The next-generation IVF laboratory
Speaker / Institution	S. Wang (The Affiliated Drumtower Hospital, Reproductive Medicine Center, Nanjing- Jiangsu, China)
Speaker biography	官网 Biography 显示，S. Wang（The Affiliated Drumtower Hospital, Reproductive Medicine Center, Nanjing- Jiangsu, China）主要背景为实验室主任/胚胎实验室管理者、高校/研究机构教授或研究人员；简介重点涉及冷冻保存、玻璃化冷冻、卵母细胞、胚胎选择。
Why it matters	对应胚胎/卵母细胞冷冻、复温流程改良、自动化冷冻平台和生育力保存业务。

专题七：受精方式、救援 ICSI、异常受精胚胎利用与人工卵母细胞激活

关注要点：从经典授精与 ICSI 选择、精子旧流程、原核评估，到救援 ICSI、1PN/3PN/4PN 异常受精胚胎咨询、睾丸精子周期人工激活和冷冻睾丸精子样本处理。

L26-PCC-011 我们需要谈谈精子：当精子处理仍沿用旧方式

English title: We need to talk about sperm: when it clings to old ways

Schedule / Room	Sunday, July 5, 2026 11:00-11:30 Capital Suite 14-16 PCC02: Old habits die hard
Speaker / Institution	Dr Michael Carroll (Manchester Metropolitan University; Ireland)
Speaker biography	官网 Biography 显示，Dr Michael Carroll (Manchester Metropolitan University; Ireland) 主要背景为高校/研究机构教授或研究人员；简介重点涉及男性不育/精子生物学、精子生物学。
Why it matters	与受精失败处理、男方因素周期、异常受精胚胎再利用和患者咨询策略相关。

L26-PCC-012 回到受精的未来：重新审视经典授精并评估新趋势

English title: Back to the future of fertilisation: revisiting classic insemination and assessing new trends

Schedule / Room	Sunday, July 5, 2026 11:45-12:15 Capital Suite 14-16 PCC02: Old habits die hard
Speaker / Institution	Dr Sofia Makieva (University Hospital Zurich; Switzerland)
Speaker biography	官网 Biography 显示，Dr Sofia Makieva (University Hospital Zurich; Switzerland) 主要背景为临床胚胎学家、博士后研究人员；简介重点涉及 AI/人工智能、卵母细胞、受精机制。具备 ESHRE 认证/认可背景。
Why it matters	与受精失败处理、男方因素周期、异常受精胚胎再利用和患者咨询策略相关。

L26-PCC-013 原核评估：正在消失的技艺？

English title: Pronuclear assessment: a dying art?

Schedule / Room	Sunday, July 5, 2026 13:30-14:00 Capital Suite 14-16 PCC02: Old habits die hard
Speaker / Institution	Dr Amy Barrie (United Kingdom)
Speaker biography	官网 Biography 显示，Dr Amy Barrie (United Kingdom) 主要背景为科研人员；简介重点涉及 AI/人工智能、Time-lapse 胚胎观察。简介提及具有 15 年以上相关经验。
Why it matters	与受精失败处理、男方因素周期、异常受精胚胎再利用和患者咨询策略相关。

L26-O-195 次日救援 ICSI：能否有效应对完全受精失败？

English title: Day-after rescue ICSI: is it an effective strategy to overcome total fertilisation failure?

Schedule / Room	Tuesday, July 7, 2026 15:45-16:00 Auditorium Session 59: The clock is ticking in the embryology lab
Speaker / Institution	O. Isikoglu (Aston University, Medical School, Epsom, United Kingdom)

Speaker biography	官网 Biography 显示，O. Isikoglu（Aston University, Medical School, Epsom, United Kingdom）主要背景为生殖医学/胚胎学相关专业人员；简介重点涉及 AI/人工智能、受精机制。
Why it matters	与受精失败处理、男方因素周期、异常受精胚胎再利用和患者咨询策略相关。

L26-O-196 从异常受精到最后机会：1PN 胚胎在 IVF 中的真实临床价值

English title: From atypical fertilization to last-chance success: the real clinical value of 1PN-embryos in IVF

Schedule / Room	Tuesday, July 7, 2026 16:00-16:15 Auditorium Session 59: The clock is ticking in the embryology lab
Speaker / Institution	A. Ahlstrom (IVIRMA Global Research Alliance, Livio, Gothenburg, Sweden)
Speaker biography	官网 Biography 显示，A. Ahlstrom（IVIRMA Global Research Alliance, Livio, Gothenburg, Sweden）主要背景为临床胚胎学家、高校/研究机构教授或研究人员；简介重点涉及受精机制、着床。核验提示：Biography 主体为 Danilo Cimadomo，与官方报告人字段 A. Ahlstrom 不完全一致，建议会前复核。
Why it matters	与受精失败处理、男方因素周期、异常受精胚胎再利用和患者咨询策略相关。

L26-O-197 异常受精胚胎的临床使用：面对 2.1PN、完整 3PN 或 4PN 及以上胚胎时的患者咨询

English title: The clinical utilisation of atypically fertilised embryos: counselling patients when presented with 2.1PN, full 3PN or 4PN or more embryos on day 1 of culture

Schedule / Room	Tuesday, July 7, 2026 16:15-16:30 Auditorium Session 59: The clock is ticking in the embryology lab
Speaker / Institution	L. Nesbeth (HCA Healthcare, Lister Fertility Clinic, London, United Kingdom)
Speaker biography	官网 Biography 显示，L. Nesbeth（HCA Healthcare, Lister Fertility Clinic, London, United Kingdom）主要背景为临床胚胎学家、科研人员；简介重点涉及 AI/人工智能。
Why it matters	与受精失败处理、男方因素周期、异常受精胚胎再利用和患者咨询策略相关。

L26-O-286 既往未形成囊胚患者中，IVF 与 ICSI 对获得至少一枚可用囊胚概率的影响

English title: Impact of IVF versus ICSI on the likelihood of obtaining at least one usable blastocyst in patients who previously failed to form a blastocyst

Schedule / Room	Wednesday, July 8, 2026 10:00-10:15 George V 3+4 Session 83: The Blastocyst story
Speaker / Institution	G. Majumdar (Sir Ganga Ram Hospital, Center of IVF and Human Reproduction, Delhi, India)
Speaker biography	官网 Biography 显示，G. Majumdar（Sir Ganga Ram Hospital, Center of IVF and Human Reproduction, Delhi, India）主要背景为实验室主任/胚胎实验室管理者、临床胚胎学家；简介重点涉及 AI/人工智能、囊胚发育、实验室质量控制、实验室 KPI。简介提及具有 20 年以上相关经验。
Why it matters	与受精失败处理、男方因素周期、异常受精胚胎再利用和患者咨询策略相关。

L26-O-287 人重组透明质酸酶延长脱颗粒时间但不改善受精或囊胚质量：供卵周期同胞卵配对研究

English title: Human recombinant hyaluronidase increases denudation time without improving fertilization or blastocyst quality: a paired sibling-oocyte study in donor cycles

Schedule / Room	Wednesday, July 8, 2026 10:15-10:30 George V 3+4 Session 83: The Blastocyst story
Speaker / Institution	L. Morente (Fertilab, Assisted Reproduction Unit, Barcelona, Spain)
Speaker biography	官网 Biography 显示，L. Morente（Fertilab, Assisted Reproduction Unit, Barcelona, Spain）主要背景为临床胚胎学家；简介重点涉及 AI/人工智能、卵母细胞、囊胚发育、受精机制。
Why it matters	与受精失败处理、男方因素周期、异常受精胚胎再利用和患者咨询策略相关。

L26-O-311 使用冷冻睾丸精子样本周期中两种人工卵母细胞激活剂的效果比较

English title: A comparison of effectiveness for two artificial oocyte activation agents in cycles involving frozen testicular sperm samples

Schedule / Room	Wednesday, July 8, 2026 14:30-14:45 Auditorium Session 92: What are we putting around our embryos?
Speaker / Institution	M.S. Uzman (Novafertil IVF Centre, Embryology Lab, Konya, Turkey)
Speaker biography	官网 Biography 显示，M.S. Uzman（Novafertil IVF Centre, Embryology Lab, Konya, Turkey）主要背景为实验室主任/胚胎实验室管理者、临床胚胎学家；简介重点涉及 Time-lapse 胚胎观察、卵母细胞、精子生物学。
Why it matters	与受精失败处理、男方因素周期、异常受精胚胎再利用和患者咨询策略相关。

L26-O-312 非梗阻性无精子症 TESA-ICSI 周期中使用离子霉素进行人工卵母细胞激活：受精、胚胎能力和生殖结局

English title: Artificial oocyte activation with ionomycin in TESA-ICSI cycles for non-obstructive azoospermia: fertilization, embryo competence and reproductive outcomes

Schedule / Room	Wednesday, July 8, 2026 14:45-15:00 Auditorium Session 92: What are we putting around our embryos?
Speaker / Institution	H. LAKHLANI (Oasis Fertility, Embryology, Hyderabad, India)
Speaker biography	官网 Biography 显示，H. LAKHLANI（Oasis Fertility, Embryology, Hyderabad, India）主要背景为生殖医学/胚胎学相关专业人员；简介重点涉及 AI/人工智能、冷冻保存、卵母细胞、胚胎培养。
Why it matters	与受精失败处理、男方因素周期、异常受精胚胎再利用和患者咨询策略相关。

专题八：下一代 IVF 实验室运营：旧习惯、排班、图像颜色与关键时间窗

关注要点：面向实验室管理：是否保留旧习惯、彩色成像价值、周末监测是否提高活产、取卵至脱颗粒间隔等。适合领导评估实验室流程再设计和 KPI 管理。

L26-PCC-015 停留在灰度图像上：我们是否忽视了彩色成像的价值？

English title: Stuck on grey: are we overlooking the value of color imaging?

Schedule / Room	Sunday, July 5, 2026 15:30-16:00 Capital Suite 14-16 PCC02: Old habits die hard
Speaker / Institution	Dr Samuel Ojosnegros (Institute for BioEngineering of Catalonia (IBEC); Spain)
Speaker biography	官网 Biography 显示，Dr Samuel Ojosnegros (Institute for BioEngineering of Catalonia (IBEC); Spain) 主要背景为生殖医学/胚胎学相关专业人员；简介重点涉及生殖生物工程、着床。
Why it matters	与实验室流程标准化、工作负荷、时间窗控制和运营效率直接相关。

L26-PCC-016 下一代 IVF 实验室：哪些旧习惯会保留下来？

English title: Next-generation IVF Laboratory: which old habits will survive the future?

Schedule / Room	Sunday, July 5, 2026 16:15-16:45 Capital Suite 14-16 PCC02: Old habits die hard
Speaker / Institution	Dr Nuno Costa-Borges (Embryotools S.L.; Spain)
Speaker biography	官网 Biography 显示，Dr Nuno Costa-Borges (Embryotools S.L.; Spain) 主要背景为临床胚胎学家、企业创始人/高管或转化负责人；简介重点涉及 AI/人工智能、囊胚发育、活产结局。简介提及其具有 18 年以上相关经验。
Why it matters	与实验室流程标准化、工作负荷、时间窗控制和运营效率直接相关。

L26-O-194 取卵至脱颗粒间隔可独立预测 PGT-A 周期整倍体囊胚产量：1502 个周期回顾性队列研究

English title: The oocyte retrieval-to-denudation interval independently predicts euploid blastocyst yield in PGT-A cycles: a retrospective cohort study of 1,502 cycles

Schedule / Room	Tuesday, July 7, 2026 15:30-15:45 Auditorium Session 59: The clock is ticking in the embryology lab
Speaker / Institution	X. Shun (Reproductive Medicine Center- Women and Children's Hospital of Chongqing Medical University- Chongqing Key Laboratory of Human Embryo Engineering- Chongqing Clinical Research Center for Reproductive Medicine- Chongqing Health Center for Women and Children, Reproductive Medicine Center, Chongqing, China)
Speaker biography	官网 Biography 显示，X. Shun (Reproductive Medicine Center- Women and Children's Hospital of Chongqing Medical University- Chongqing Key Laboratory of Human Embryo Engineering- Chongqing Clinical Research Center for Reproductive Medicine- Chongqing Health Center for Women and Children, Reproductive Medicine Center, Chongqing, China) 主要背景为临床胚胎学家；简介重点涉及卵母细胞、PGT/胚胎植入前遗传学检测、囊胚发育、着床。简介提及其具有 20 年以上相关经验。
Why it matters	与实验室流程标准化、工作负荷、时间窗控制和运营效率直接相关。

L26-O-267 将周末纳入 IVF 监测延长排班并不能提高活产率

English title: Extended schedule to include weekend for monitoring for IVF treatment does not improve live birth rates

Schedule / Room	Wednesday, July 8, 2026 11:15-11:30 Auditorium Session 79: The next-generation IVF laboratory
Speaker / Institution	I. Tur-Kaspa (Institute for Human Reproduction- Pinnacle Fertility - Illinois IHR, Medical, Chicago, U.S.A)
Speaker biography	官网 Biography 显示，I. Tur-Kaspa（Institute for Human Reproduction- Pinnacle Fertility - Illinois IHR, Medical, Chicago, U.S.A）主要背景为高校/研究机构教授或研究人员；简介重点涉及 AI/人工智能、PGT/胚胎植入前遗传学检测、活产结局。有同行评议论文发表经历。
Why it matters	与实验室流程标准化、工作负荷、时间窗控制和运营效率直接相关。
