

ESHRE 2026 生育力保存重点报告

Key Fertility Preservation Reports

一、摘要

- ESHRE 生育力保存相关报告的核心趋势是：临床真实世界结局、计划性卵母细胞冷冻咨询、肿瘤及复杂疾病患者路径、生殖腺组织冷冻/移植、体外卵泡生长和冷冻后分子质量控制正在形成连续证据链。
- 建议优先关注：计划性卵母细胞冷冻的年龄相关结局和回返使用率、AI 辅助冷冻数量概率模型、癌症幸存者长期生殖结局、乳腺癌/白血病/卵巢肿瘤/血红蛋白病患者的生育力保存、未成熟睾丸组织自体移植和人卵巢组织保护机制。
- 对公司研发和业务转化最相关的内容包括：生育力保存患者咨询模型、卵母细胞冷冻数量建议、卵巢/睾丸组织冻存与功能恢复、卵泡体外生长体系、冻融损伤机制和分子质控终点。

二、建议关注优先级

Priority	Topic	Key reports	Why we should care
高	计划性卵母细胞冷冻咨询与获益预测	L26-O-035, L26-P-397, L26-O-037	超过 12,000 周期全国队列、12 年经验和 AI 概率模型均指向可产品化的患者咨询与冷冻数量决策。
高	肿瘤生殖长期结局和真实世界随访	L26-O-034, L26-P-391, L26-O-039, L26-P-425	涉及儿童/青少年癌症、白血病、乳腺癌和卵巢肿瘤患者，是生育力保存门诊和多学科协作的核心证据场景。
高	生殖腺组织冷冻与功能恢复	L26-O-036, L26-O-213, L26-O-214	未成熟睾丸组织自体移植、人窦前卵泡体外生长和 mTOR 通路干预体现未来转化前沿。
中高	冷冻工艺和分子质量控制	L26-O-216, L26-O-217	从传统生存率/形态评价推进到 FOXL2/CYP19A1 和转录组稳定性等分子终点。
中高	体外卵泡生长与损伤防护机制	L26-P-414, L26-O-215	与原始卵泡激活、基因毒性损伤、DNA 修复和候选保护剂筛选相关。
中	特殊人群服务路径和公平性	L26-O-038, L26-P-426	跨性别/性别多元患者和血红蛋白病患者提示服务覆盖与个体化咨询需求。
中	肿瘤治疗前快速促排方案细节	L26-P-411	与 PPOS 等快速促排方案的实验室/内分泌监测有关，偏临床流程优化。

三、日程概览

Session	Chinese focus	Schedule / Room	Type	Chairs
Session 07: Fertility preservation across the life span	全生命周期生育力保存	Monday, July 6, 2026 10:00-11:30 Capital Suite 7-12	Selected oral communications	Dr Claudia Massarotti (University of Genova; Italy); Professor Richard Anderson (University of Edinburgh; United Kingdom)
Session 20: Poster discussion session - Fertility Preservation	生育力保存海报讨论	Monday, July 6, 2026 14:00-15:00 Connaught 1-4	Poster discussion	Not listed in provided snapshot
Session 63: Pre-clinical developments for optimizing fertility preservation strategies	优化生育力保存策略的预临床进展	Tuesday, July 7, 2026 15:15-16:30 George V 3+4	Selected oral communications	Dr Stine Gry Kristensen (Copenhagen University Hospital; Denmark); Ms Ephra Yasmin (United Kingdom)

四、专题整理

专题一：全生命周期生育力保存与肿瘤幸存者长期生殖结局

关注要点：关注儿童/青少年癌症幸存者、白血病幸存者、乳腺癌患者、卵巢肿瘤患者及血红蛋白病女性的长期生殖结局、复发风险和生育力保存安全性。适合领导判断临床服务路径、随访体系和真实世界证据建设方向。

L26-O-034 儿童和青少年癌症幸存者长期生殖结局：基于国家登记关联的人群研究

English title: Long-term reproductive outcomes in survivors of childhood and adolescent cancer: a population-based study using linkage of national registers

Schedule / Room	Monday, July 6, 2026 10:00-10:15 Capital Suite 7-12 Session 07: Fertility preservation across the life span
Speaker / Institution	M. Das (Glasgow Royal Infirmary- University of Glasgow- UK- Imperial College- London- United Kingdom, Reproductive Medicine- Department of Obstetrics and Gynaecology, London, United Kingdom)
Speaker biography	官网 Biography 显示，M. Das（Glasgow Royal Infirmary- University of Glasgow- UK- Imperial College- London- United Kingdom, Reproductive Medicine- Department of Obstetrics and Gynaecology, London, United Kingdom）主要背景为妇产科/生殖医学临床医生、高校或研究机构教授/教师；简介重点涉及生育力保存、肿瘤患者生育力保存、PCOS/生殖内分泌、男性生育力。
Why we should care	直接关系到生育力保存门诊服务对象拓展、肿瘤生殖咨询、长期随访指标和多学科协作路径。

L26-P-391 不同治疗方式白血病幸存者的生育结局：系统综述与 Meta 分析

English title: fertility outcomes in leukemia survivors by treatment modality: a systematic review and meta-analysis

Schedule / Room	Monday, July 6, 2026 14:10-14:20 Connaught 1-4 Session 20: Poster discussion session - Fertility Preservation
Speaker / Institution	J. Altmann (Charité - University Hospital Berlin- Germany and North-Eastern German Society, Department of Gynecology with Center for Oncological Surgery, Berlin, Germany)
Speaker biography	官网 Biography 显示，J. Altmann（Charité - University Hospital Berlin- Germany and North-Eastern German Society, Department of Gynecology with Center for Oncological Surgery, Berlin, Germany）主要背景为妇产科/生殖医学临床医生；简介重点涉及生育力保存、肿瘤患者生育力保存。
Why we should care	直接关系到生育力保存门诊服务对象拓展、肿瘤生殖咨询、长期随访指标和多学科协作路径。

L26-P-425 交界性和恶性卵巢肿瘤女性的生育力保存与复发风险：单个三级中心经验

English title: Fertility preservation and recurrence risk in women with borderline and malignant ovarian tumours: a single tertiary centre experience.

Schedule / Room	Monday, July 6, 2026 14:40-14:50 Connaught 1-4 Session 20: Poster discussion session - Fertility Preservation
Speaker / Institution	L.V. De Braud (University College Hospital London, Women's Health, London, United Kingdom)
Speaker biography	官网 Biography 显示，L.V. De Braud（University College Hospital London, Women's Health, London, United Kingdom）主要背景为妇产科/生殖医学临床医生；简介重点涉及生育力保存。
Why we should care	直接关系到生育力保存门诊服务对象拓展、肿瘤生殖咨询、长期随访指标和多学科协作路径。

L26-P-426 血红蛋白病女性的生育力保存和生殖结局：系统综述与 Meta 分析

English title: Fertility preservation and reproductive outcomes in females with haemoglobinopathies: a systematic review and meta-analysis

Schedule / Room	Monday, July 6, 2026 14:50-15:00 Connaught 1-4 Session 20: Poster discussion session - Fertility Preservation
Speaker / Institution	K. Sherlock (University College London Hospital, Reproductive Medicine Unit, London, United Kingdom)
Speaker biography	官网 Biography 显示，K. Sherlock（University College London Hospital, Reproductive Medicine Unit, London, United Kingdom）主要背景为博士后/博士阶段研究者、科研人员；简介重点涉及生育力保存、血红蛋白病相关生育力保存。
Why we should care	直接关系到生育力保存门诊服务对象拓展、肿瘤生殖咨询、长期随访指标和多学科协作路径。

L26-O-039 乳腺癌绝经前女性化疗对卵巢储备的影响：伴或不伴卵巢组织冷冻的生育力保存队列研究

English title: Impact of chemotherapy on ovarian reserve in premenopausal women with breast cancer treated with and without ovarian tissue cryopreservation for fertility preservation: a cohort study

Schedule / Room	Monday, July 6, 2026 11:15-11:30 Capital Suite 7-12 Session 07: Fertility preservation across the life span
Speaker / Institution	M. Yde (Copenhagen University Hospital- Rigshospitalet, The Fertility Clinic- Department of Gynaecology- Fertility and Obstetrics, Copenhagen, Denmark)
Speaker biography	官网 Biography 显示，M. Yde（Copenhagen University Hospital- Rigshospitalet, The Fertility Clinic- Department of Gynaecology- Fertility and Obstetrics, Copenhagen, Denmark）主要背景为妇产科/生殖医学临床医生、博士后/博士阶段研究者；简介重点涉及生育力保存、肿瘤患者生育力保存、乳腺癌相关生育力保存、冷冻保存。
Why we should care	直接关系到生育力保存门诊服务对象拓展、肿瘤生殖咨询、长期随访指标和多学科协作路径。

专题二：计划性卵母细胞冷冻、回返使用率和个体化冷冻数量决策

关注要点：聚焦计划性卵母细胞冷冻的年龄相关结局、卵母细胞使用回返率、累计活产率，以及 AI 卵母细胞形态评分和年龄依赖整倍体率整合后的概率模型。该专题最接近患者咨询工具、冷冻数量建议和产品化决策模型。

L26-O-035 计划性卵母细胞冷冻后的年龄相关结局：超过 12,000 个周期的 12 年全国队列研究

English title: Age-related outcomes after planned oocyte cryopreservation: a 12-year national cohort study of over 12,000 cycles

Schedule / Room	Monday, July 6, 2026 10:15-10:30 Capital Suite 7-12 Session 07: Fertility preservation across the life span
Speaker / Institution	M. Shavit (McGill University, MUHC Reproductive Centre, Montréal- Quebec, Canada)
Speaker biography	官网 Biography 显示，M. Shavit（McGill University, MUHC Reproductive Centre, Montréal- Quebec, Canada）主要背景为妇产科/生殖医学临床医生；简介重点涉及生育力保存、冷冻保存、卵母细胞/卵子冷冻、生殖衰老。
Why we should care	可转化为计划性卵子冷冻咨询模型、卵母细胞数量建议、获益预期沟通和冷冻服务质控指标。

L26-P-397 计划性卵母细胞冷冻后卵母细胞使用回返率及累计活产率：12 年经验

English title: Return rates and cumulative live birth rates following the use of oocytes after elective oocyte cryopreservation. 12 years' experience .

Schedule / Room	Monday, July 6, 2026 14:00-14:10 Connaught 1-4 Session 20: Poster discussion session - Fertility Preservation
Speaker / Institution	M. Solé Inarejos (Dexeus Fertility, Department of Obstetrics Gynecology and Reproductive Medicine, Barcelona, Spain)

Speaker biography	官网 Biography 显示, M. Solé Inarejos (Dexeus Fertility, Department of Obstetrics Gynecology and Reproductive Medicine, Barcelona, Spain) 主要背景为冷冻/胚胎实验室负责人、临床胚胎学家; 简介重点涉及冷冻保存、冷冻生物学、卵母细胞/卵子冷冻。简介提及 ESHRE/ASRM/ASEBIR 等专业组织或认证背景。
Why we should care	可转化为计划性卵子冷冻咨询模型、卵母细胞数量建议、获益预期沟通和冷冻服务质控指标。

L26-O-037 用于生育力保存的冷冻卵母细胞数量是否足够? 整合 AI 卵母细胞形态和年龄依赖整倍体率的概率模型

English title: Are Women Cryopreserving Enough Oocytes for Fertility-Preservation? A Probabilistic Model Integrating Artificial Intelligence (AI)-Based Oocyte Morphology and Age-Dependent Euploidy

Schedule / Room	Monday, July 6, 2026 10:45-11:00 Capital Suite 7-12 Session 07: Fertility preservation across the life span
Speaker / Institution	D. Braga (Fertility Medical Group, Scientific department, Sao Paulo, Brazil)
Speaker biography	官网 Biography 显示, D. Braga (Fertility Medical Group, Scientific department, Sao Paulo, Brazil) 主要背景为生殖医学/生育力保存相关专业人员; 简介重点涉及卵母细胞/卵子冷冻。简介提及其发表论文数量较多。
Why we should care	可转化为计划性卵子冷冻咨询模型、卵母细胞数量建议、获益预期沟通和冷冻服务质控指标。

专题三：临床促排策略与特殊人群可及性

关注要点：关注肿瘤治疗前孕激素预处理促排中的孕酮水平，以及跨性别/性别多元患者在转诊时使用性别肯定激素治疗对生育力保存结局的影响。该专题对临床路径精细化和服务公平性具有管理价值。

L26-P-411 肿瘤治疗前生育力保存采用孕激素预处理促排时的血清孕酮浓度

English title: Serum progesterone concentration in women undergoing progestin-primed ovarian stimulation for fertility preservation before oncological treatments

Schedule / Room	Monday, July 6, 2026 14:20-14:30 Connaught 1-4 Session 20: Poster discussion session - Fertility Preservation
Speaker / Institution	S. Comana (Università degli Studi di Milano, Department of Clinical Sciences and Community Health, Milan, Italy)
Speaker biography	官网 Biography 显示, S. Comana (Università degli Studi di Milano, Department of Clinical Sciences and Community Health, Milan, Italy) 主要背景为妇产科/生殖医学临床医生; 简介重点涉及生育力保存、肿瘤患者生育力保存。
Why we should care	对应肿瘤治疗前快速启动促排、特殊人群生育力保存服务设计和患者沟通中的可及性与安全性问题。

L26-O-038 转诊时性别肯定激素治疗与跨性别及性别多元患者生育力保存结局：NHS 队列研究

English title: Gender Affirming Hormone Treatment (GHAT) at referral and fertility preservation outcomes in Transgender and Gender-Diverse (TGD) patients: an NHS cohort study

Schedule / Room	Monday, July 6, 2026 11:00-11:15 Capital Suite 7-12 Session 07: Fertility preservation across the life span
Speaker / Institution	O. Tsonis (Guy's and St Thomas' NHS Foundation Trust, Fertility Preservation Service- Assisted Conception Unit, London, United Kingdom)
Speaker biography	官网 Biography 显示，O. Tsonis（Guy's and St Thomas' NHS Foundation Trust, Fertility Preservation Service- Assisted Conception Unit, London, United Kingdom）主要背景为妇产科/生殖医学临床医生；简介重点涉及生育力保存、肿瘤生殖、跨性别包容性生育力保存路径。简介提及其发表 70 篇以上同行评议论文。
Why we should care	对应肿瘤治疗前快速启动促排、特殊人群生育力保存服务设计和患者沟通中的可及性与安全性问题。

专题四：生殖腺组织冷冻、移植和体外成熟的转化潜力

关注要点：涵盖未成熟睾丸组织自体移植首次成功、窦前卵泡体外生长卵母细胞用于生育恢复、以及 Everolimus 保护人卵巢组织的预临床机制。该专题代表生育力保存从“保存材料”走向“恢复功能”的前沿方向。

L26-O-036 性腺毒性治疗后恢复生育力：人类未成熟冷冻睾丸组织自体移植首次成功

English title: Restoring fertility after gonadotoxic treatment: first successful autologous transplant of immature cryopreserved testicular tissue in the human

Schedule / Room	Monday, July 6, 2026 10:30-10:45 Capital Suite 7-12 Session 07: Fertility preservation across the life span
Speaker / Institution	E. Goossens (Vrije Universiteit Brussel, Genetics- Reproduction and Development, Brussels, Belgium)
Speaker biography	官网 Biography 显示，E. Goossens（Vrije Universiteit Brussel, Genetics- Reproduction and Development, Brussels, Belgium）主要背景为高校或研究机构教授/教师；简介重点涉及冷冻保存、睾丸组织冷冻/移植、精原干细胞/男性生育力恢复、男性生育力。简介提及其发表论文数量较多。
Why we should care	与儿童/青春前期患者、睾丸组织/卵巢组织冷冻、组织移植、体外卵泡成熟和未来再生医学转化高度相关。

L26-O-213 实现窦前卵泡体外生长卵母细胞用于生育力恢复的治疗潜力

English title: Realising the therapeutic potential of in vitro-grown oocytes from preantral follicles for fertility restoration

Schedule / Room	Tuesday, July 7, 2026 15:15-15:30 George V 3+4 Session 63: Pre-clinical developments for optimizing fertility preservation strategies
-----------------	---

Speaker / Institution	H.M. Picton (School of Medicine- University of Leeds, Discovery and Translational Science Department- Leeds Institute of Cardiovascular and Metabolic Medicine, Leeds, United Kingdom)
Speaker biography	官网 Biography 显示, H.M. Picton (School of Medicine- University of Leeds, Discovery and Translational Science Department- Leeds Institute of Cardiovascular and Metabolic Medicine, Leeds, United Kingdom) 主要背景为高校或研究机构教授/教师、科研人员; 简介重点涉及生育力保存、卵母细胞/卵子冷冻、卵泡发育/体外生长、卵泡发生。简介提及及其发表论文数量较多; 简介提及 ESHRE/ASRM/ASEBIR 等专业组织或认证背景。
Why we should care	与儿童/青春期前患者、睾丸组织/卵巢组织冷冻、组织移植、体外卵泡成熟和未来再生医学转化高度相关。

L26-O-214 Everolimus 通过 mTOR/S6/eIF4B 信号通路抑制原始卵泡激活, 从而保护异种移植人卵巢组织

English title: Everolimus preserves xenotransplanted human ovarian tissue by inhibiting primordial follicle activation via the mTOR/S6/eIF4B signaling pathway

Schedule / Room	Tuesday, July 7, 2026 15:30-15:45 George V 3+4 Session 63: Pre-clinical developments for optimizing fertility preservation strategies
Speaker / Institution	Y. kuang (the Third Affiliated Hospital of Zhengzhou University, Center for Reproductive Medicine, zhengzhou, China)
Speaker biography	官网 Biography 显示, Y. kuang (the Third Affiliated Hospital of Zhengzhou University, Center for Reproductive Medicine, zhengzhou, China) 主要背景为妇产科/生殖医学临床医生; 简介重点涉及卵巢组织冷冻/移植、卵泡发育/体外生长。
Why we should care	与儿童/青春期前患者、睾丸组织/卵巢组织冷冻、组织移植、体外卵泡成熟和未来再生医学转化高度相关。

专题五：卵泡体外生长、基因毒性损伤防护与冷冻后分子质量控制

关注要点：围绕人原始卵泡体外生长、基因毒性应激下 PI3K/Akt 和 DNA 修复通路、玻璃化卵巢组织中 FOXL2/CYP19A1 相关雌激素合成下降, 以及超快速玻璃化对人卵母细胞转录组稳定性的影响。该专题对培养体系、保护剂筛选、冷冻工艺评价和分子质控有较强研发价值。

L26-P-414 人原始卵泡体外生长：盐酸葫芦巴碱对卵泡激活和生长的影响

English title: In Vitro Growth of human primordial follicles: Effect of Trigonelline hydrochloride on follicle activation and growth

Schedule / Room	Monday, July 6, 2026 14:30-14:40 Connaught 1-4 Session 20: Poster discussion session - Fertility Preservation
Speaker / Institution	A. AJLAN (The University of Edinburgh, Institute of Cell Biology, Edinburgh, United Kingdom)
Speaker biography	官网 Biography 显示, A. AJLAN (The University of Edinburgh, Institute of Cell Biology, Edinburgh, United Kingdom) 主要背景为临床胚胎学家、高校或研究机构教授/教师; 简介重点涉及生育力保存、卵泡发育/体外生长。

Why we should care	为卵泡激活调控、卵巢组织冻融损伤机制、体外生长体系和冷冻流程分子质控提供可追踪研发线索。
---------------------------	--

L26-O-215 PI3K/Akt 信号和 DNA 修复通路决定基因毒性应激下卵泡阶段依赖性反应

English title: PI3K/Akt signaling and DNA repair pathways determine stage-dependent follicle responses under genotoxic stress

Schedule / Room	Tuesday, July 7, 2026 15:45-16:00 George V 3+4 Session 63: Pre-clinical developments for optimizing fertility preservation strategies
Speaker / Institution	L. Cacciottola (Stabilité Génétique Cellules Souches et Radiations- iRCM/IBFJ/ CEA, Laboratory of development of gonades, Fontenay-aux-Roses, France)
Speaker biography	官网 Biography 显示, L. Cacciottola (Stabilité Génétique Cellules Souches et Radiations- iRCM/IBFJ/ CEA, Laboratory of development of gonades, Fontenay-aux-Roses, France) 主要背景为妇产科/生殖医学临床医生、高校或研究机构教授/教师; 简介重点涉及卵泡发育/体外生长、DNA 修复/基因毒性损伤、基因毒性损伤。
Why we should care	为卵泡激活调控、卵巢组织冻融损伤机制、体外生长体系和冷冻流程分子质控提供可追踪研发线索。

L26-O-216 O-GlcNAc 糖基化介导的 FOXL2 不稳定导致玻璃化卵巢组织中 CYP19A1 相关雌激素合成下降

English title: O-GlcNAcylation-mediated FOXL2 destabilization underlies reduced estrogen synthesis via CYP19A1 in vitrified ovarian tissue

Schedule / Room	Tuesday, July 7, 2026 16:00-16:15 George V 3+4 Session 63: Pre-clinical developments for optimizing fertility preservation strategies
Speaker / Institution	C. Zhang (Ren Ji Hospital- Shanghai Jiao Tong University School of Medicine, Department of Reproductive Medicine- Shanghai Key Laboratory for Assisted Reproduction and Reproductive Genetics, Shanghai, China)
Speaker biography	官网 Biography 显示, C. Zhang (Ren Ji Hospital- Shanghai Jiao Tong University School of Medicine, Department of Reproductive Medicine- Shanghai Key Laboratory for Assisted Reproduction and Reproductive Genetics, Shanghai, China) 主要背景为妇产科/生殖医学临床医生、科研人员; 简介重点涉及生育力保存、卵母细胞/卵子冷冻、卵巢组织冷冻/移植、生殖内分泌。简介提及发表 10 篇以上 SCI 论文; 简介提及主持国家自然科学基金相关项目。
Why we should care	为卵泡激活调控、卵巢组织冻融损伤机制、体外生长体系和冷冻流程分子质控提供可追踪研发线索。

L26-O-217 人卵母细胞分子特征: 扩展队列显示超快速玻璃化较常规方案增强转录组稳定性

English title: Molecular signatures of human oocytes: enhanced transcriptomic stability following ultra-rapid vitrification compared with conventional protocols in an expanded cohort

Schedule / Room	Tuesday, July 7, 2026 16:15-16:30 George V 3+4 Session 63: Pre-clinical developments for optimizing fertility preservation strategies
Speaker / Institution	B. Aydin (OVOGENE BANK, Ivf, BRATISLAVA, Slovakia)
Speaker biography	官网 Biography 显示, B. Aydin (OVOGENE BANK, Ivf, BRATISLAVA, Slovakia) 主要背景为冷冻/胚胎实验室负责人、临床胚胎学家; 简介重点涉及冷冻保存、玻璃化冷冻、卵母细胞/卵子冷冻、转录组稳定性。简介提及 ESHRE/ASRM/ASEBIR 等专业组织或认证背景; 简介提及 15 年以上实验室或胚胎学经验。
Why we should care	为卵泡激活调控、卵巢组织冻融损伤机制、体外生长体系和冷冻流程分子质控提供可追踪研发线索。
